**One Way Street – E 2nd Street – Maple Ave. to Cedar Ave.**

Beginning Monday, September 16th, 2019 the City will be creating a temporary one-way street with angled parking on East 2nd Street between Maple Avenue and Cedar Avenue. These temporary changes are being done to gauge the need for additional parking adjacent to the Library and Community Center. These temporary changes will be in place until snow season begins.

A survey to gauge public opinion of the one-way street and angled parking will be located in the Library at the information desk and in the Community Center in the Parks and Recreation office. Upon completion of the temporary one-way street city staff will put together the results of the surveys and bring a recommendation to the Board of Public Works this winter for their consideration.

Questions concerning this traffic change or other road work can be directed to the Engineering Division at 715-486-2034.
