Library Expansion Steering Committee
July 21, 2010
3:00 p.m.

The meeting was called to order at 3:04 p.m. by Committee Chair, Coy.

Attendance: Steve Coy, Library Director, Lori Belongia and ex-officio, Pat Saucerman.

Absent: Julie Horton

Also Present: City Planning and Economic Development Director, Jason Angell, Kris Keogh, Nate Norberg and Mary Page.

Discuss Existing Section Needs: Staff confirmed or changed the space needs assessment pulled together by Coy from interviews with the staff. Belongia incorporated the changes and modified Coy's spreadsheet. There was discussion. The consensus of the committee is to prioritize those needs.

Discuss the charrette: Approximately 42 people have signed up to attend the charrette. Belongia and Angell feel that there is a good mix of people i.e. members of the senior citizens, local politicians, businesses and the general public. The idea is to tour both the library and senior center and then break into groups to discuss and share ideas concerning the expansion.

Next Steps: Based on what comes out of the charrette, we will have a better idea of which organizations are truly interested and if they would be a good match with the library. There was discussion concerning the possibility of having a separate web site for this project. Angell will check into this. It is the consensus of this committee that unless something urgent comes up, there will be no need to meet until the early part of September

Hearing no other business, the meeting was adjourned at 3:56 p.m.

Respectfully submitted,

Mary Page
Secretary Pro Tem
