APPENDIX "B"

Both management and the employees of the Marshfield Fire Department have recognized the need for a highly skilled and flexible staff of firefighters to be trained through a formalized apprenticeship training system. For that purpose, both management and employee representatives have sought to develop an apprenticeship program intended to provide planned progressive work and learning experiences combined with classroom instruction to apprentices learning the firefighter occupation within the department.

The term of apprenticeship shall be in accordance with the state program, and shall include a probationary period as established by the department.

Both management and the employees of the department agree to implement the Firefighter Standards of Apprenticeship for the City of Marshfield Fire Department that were approved and adopted March 5, 1981.
