CHAPTER: Street/Sewer Construction and Maintenance

SUBJECT: Sanitary sewer, Water & Lateral Installation with Street Openings
and Paving

POLICY NUMBER: 5.330

PAGES: 1

EFFECTIVE DATE: October 18, 1982

Special Notes: This policy/procedure manual does not in any way constitute an employment contract and the City of Marshfield reserves the right to amend this manual at any time subject only to approval by the Common Council.

The Board of Public Works shall establish the following policy regarding installation of sanitary sewer and water mains and laterals in conjunction with street openings and street paving (concrete with curb and gutter and hot mix).

1. New Streets in Subdivision Control Ordinance

Presently all sewer and water mains and laterals are required by the developer.

2. New Streets - Old Rules

Board of Public Works establish that all sanitary sewer and water mains and accompanying required lot laterals shall be installed either by the developer or the City before the street is constructed or 'opened'.

3. Existing Streets

a. Paved Streets (curb and gutter) - Governed by State Statute.

b. Proposed Hot Mix Streets - Board of Public Works establishes that before a street is hot mixed that all sanitary sewer and water laterals be installed the previous year, to include platted areas only.
