Fire Station Tours

'SPARKY' GETS INTO THE ACT—As part of the current National Fire Prevention Week activities, Marshfield firemen have visited all schools in the city and told the pupils about fire safety. Following the lectures, the firemen and their mascot, "Sparky," showed the youngsters how the Fire Department's aerial ladder unit operates. The last school visited was the Immanuel Lutheran School where the lecture and demonstration were conducted yesterday afternoon. As always, Sparky proved to be both educational and entertaining.
