FOR IMMEDIATE RELEASE

Temporary lane restrictions for chip sealing

Tuesday, July 7, 2020 - Beginning next week Monday, July 13, 2020 and for the following week (weather dependent) there will be a street maintenance program of chip sealing on various streets in Marshfield. This work will be done by Fahrner Asphalt Sealers of Plover, Wisconsin.

Chip seal is a two-step process which includes first an application of asphalt emulsion and then a layer of crushed rock to an existing asphalt pavement surface. A chip seal gets its name from the "chips" or small crushed rock placed on the surface.

Streets included in the temporary lane restrictions will be:

- North – St. Joseph to Wood
- State – 4th to Adler
- 6th – Oak to Columbus
- 26th – Central to Wittman
- Carmen – Waushara to Upham
- Hume – McMillan to north end
- Wildflower cul-de-sac
- 11th – Central to Oak
- Hardacre – 5th to 6th
- 28th – Felker to Washington
- Debra – Carmen to Hume
- Renee – Debra to Upham

Please watch for signs and remember to slow down in construction zones. If you have any questions or concerns please contact the Street Division at 715-486-2081
