## **NEWS RELEASE**

### **South Central Avenue Overlay Program**

**Monday, August 24, 2020** - The City of Marshfield will be starting an asphalt overlay project on South Central Avenue beginning on Wednesday, August 26. Traffic will be reduced to one lane going North and South from the intersection of 29th Street to approximately ½ mile to the North.

The overlay project will consist of some concrete curb and gutter replacement, pavement, crack and joint repair, paving of a new asphalt surface and painting new pavement markings. Work will be completed one-half at a time in order to maintain through traffic on South Central Ave.

The City of Marshfield will be providing traffic control on South Central Avenue for this project. During the project, traffic lanes in the construction zone will be reduced to a width of 11 feet and speed limits will be reduced.

As always, please slowdown in the construction zone to allow for the safety of yourself and the workers. The project is anticipated to be completed in 6 to 8 weeks.

Any questions or concerns please contact the Street Division @ 715-486-2080.
