Non-zoo Animal Check Off List

Below is a check-off list for many of the non-zoo animals that are found at Wildwood Zoo. It is always fun to try and see how many of these non-zoo animals you are able to find during your visit. On the north side of the Education Kiosk there is a key to help you identify many of the animals on this list. Some of these animals can be found year round at the zoo and other animals only visit part of the year. All of these wild animals have been spotted on zoo grounds. Some are harder to find and blend in well with their surroundings. There is also a key on the north side of the kiosk to help you identify some of the trees around the zoo that you may find while looking for these non-zoo animals. Good Luck!

Birds
