The Wildwood Park Zoological Society proudly presents:

Nocturnal Neighbors

By Dino Tlachac from Nature's Niche in Stevens Point.

What goes on out in the wild once the light fades from the evening sky? Join us as we explore the world of nighttime creatures. Learn about the amazing animals that work the night shift and be astonished at the cool adaptations that help them survive in the dark.

The **Zoo Store** and **Coins for Critters** will be available for your shopping and donating pleasure. Remember, all money raised at the Zoo Store, directly helps the zoo, its animals, and funding these educational programs.

The classroom that raises the most **Coins for Critters** donations will receive a FREE <u>Biofact Experience</u> in their classroom. Our zoo educator will come to your classroom with our collection of animal artifacts. It's a hands-on educational program looking at the cool adaptations that the animals at Wildwood Zoo have to survive in the wild.

Spring Education Week will be April 30th- May 4th. Show times are: 8:15-9:00, 9:15-10:00, 10:15-11:00, 12:15-1:00, & 1:15-2:00. To schedule your program please call Kristy Palmer at (715) 387-1807 home or (715) 897-0890 cell.

Each presentation will be 45 minutes long, followed by 10-15 minutes of time to ask questions or shop. Your group will be followed by another, so it is important that you arrive on time to give each group its maximum time allotment.

Transportation is the responsibility of each school or facility.

We hope to see you there!
