

Sensory Animal Enrichment Education Program

Our North American animals at Wildwood Zoo are very interesting! They require special care, which includes enrichment. Enrichment is something that targets an animal's senses of smell, taste, touch, sight & hearing, and also pulls forth their natural behaviors. Animals in captivity need enrichment to be happy & healthy. Watch the animals play with "toys", go on a scavenger hunt for food and other fun activities!

One of the zookeepers at Wildwood Zoo will contact your group after you have scheduled your program with enrichment options if scheduled at least **one week** in advance. Please choose animal group when scheduling. This is a 60-minute program which includes two 30-minute animal presentations. A max of 30 people per presentation, please. *The cost for each program is \$200 per group with a maximum of 30 people, or \$10 per person with a minimum of 4 people. To schedule a program for your group, please call the Parks & Recreation office at 715-384-4642 ext. 0.*

Programs will include:

- A lesson plan containing components of background information on the animals.
- A list of enrichments for program groups to choose from.
- A 10-minute mystery Skype session between zoo-keeping staff & school groups (optional).
